Dr. N. J. A. Sloane  
Bell Laboratories  
600 Mountain Ave.  
Murray Hill, New Jersey 07974  
USA

Dear Dr. Sloane,

Regarding your recent query concerning unitary perfect numbers, subsequent to my paper in Delta in 1972, Dr. Charles Wall had a paper in the Proc. AMS showing that after 87360, the next unitary perfect no (5th. no) is in fact that 24 digit integer.

I have a few results that are yet to be published.

Sincerely,

M V Subbarao
